

**Part I. Question 1 to 10, please choose the answer closest to the underlined word or phrase. Question 11 to 15, please choose the answer that best completes the sentence. One Answer Only. 2 points.**

1. Some of the **potential** dangers to cows treated with synthetic bovine growth hormone were brought into light through the effort of some scientist.  
(A) related (B) possible (C) certain (D) obvious
2. As more U.S workers spend their days at keyboards, hand injuries and lawsuits are **multiplying**.  
(A) increasing (B) minimizing (C) boundary-crossing (D) profit-making
3. There are several **bodies** that match volunteers with voluntary groups, including the National Volunteering Centre.  
(A) organizations (B) remains (C) people (D) motivations
4. Piaget believed that we go through four stages in understanding the world. Each of the stages is age-related and consists of **distinct** ways of thinking.  
(A) new (B) simple (C) different (D) exact
5. Some people think that spoken language is **transient** but writing tends to last because of its physical medium (characters on some surface).  
(A) unimportant (B) temporary (C) interesting (D) clear
6. But what most prevents women from reaching the boardroom, say bosses and headhunters, is lack of **hands-on** experience of a firm's core business.  
(A) significant (B) available (C) tested (D) practical
7. Manufactured in the **tranquil** New England town of Concord, New Hampshire, the famous Concord Coach came to symbolize the Wild West.  
(A) peaceful (B) bustling (C) industrial (D) tiny
8. With oil prices shooting up, the demand for big cars is **dwindling**. Now compact cars are on great demand.  
(A) depressing (B) surpassing (C) decreasing (D) swirling
9. All of this she conferred on me without ever **setting foot in** the kitchen of her house.  
(A) leaving (B) dressing (C) entering (D) preparing
10. In choosing your career, you should follow your heart, but you also need to be **rational**.  
(A) making decisions based on intelligent thinking (B) making decisions using strong emotion of feeling  
(C) making decisions because of relationships (D) making decision because of profits
11. \_\_\_\_\_ abolishing death penalty is a global trend, the public is so polarized over the issue that it requires more discussion.  
(A) Because (B) Whereas (C) Although (D) In addition to
12. Women now often work areas \_\_\_\_\_ medicine, business management and higher education, which would not have been possible 100 years ago.  
(A) regardless of (B) in virtue of (C) due to (D) such as
13. Both the National Cancer Institute and the World Health Organization say there isn't evidence to support the assertion that cell phones are a \_\_\_\_\_ threat.  
(A) health public (B) healthy public (C) public-health (D) publically health
14. \_\_\_\_\_ on barren slopes can help prevent erosion.  
(A) Planting trees (B) For trees to be planted (C) In order to plant trees (D) Trees are planted
15. Almost four in five people around the world believe that \_\_\_\_\_, a poll for the BBC World Service suggests.  
(A) access the Internet is a fundamental right (B) that access to the Internet is a fundamental right  
(C) fundamental right accessing the Internet is (D) the fundamental right is access the Internet

**II. Question 16 to 25, please choose the best answer to fill each of the numbered blanks in the passages. 2 points each.**

People communicate in many different ways and yawning is one important means of 16 communication. It gives many different 17 to people and everyone yawns. Some birds, reptiles, fish and most mammals also yawn. However, the reason why we do it is still a mystery. There is also very little research available on yawning as for most people, it is not a problematic 18. Here are a few things that are known about yawns: 1.) The 19 duration of a yawn is about six seconds; 2.) in humans, the 20 yawn happens about eleven weeks after conception; 3.) Yawns become contagious to people between the first and second years of life.

16. (A) audio (B) friendly (C) non-verbal (D) scenario  
 17. (A) messages (B) funs (C) challenges (D) experiments  
 18. (A) resistance (B) repeat (C) reflex (D) rejection  
 19. (A) critical (B) analytical (C) terminal (D) average  
 20. (A) most difficult (B) earliest (C) most fundamental (D) experiential

Culture shock can be an excellent lesson 21 human differences. The reason culture shock occurs is that we are not prepared for these differences. 22 the way we are taught in our culture, we are all ethnocentric. This term comes from the Greek root ethnos, 23 a people or group. Thus, it refers to 24 our outlook or world view is centered on our own way of life. Ethnocentrism is the belief that one's own patterns of behavior are the best: the most natural, beautiful, right, or important. Therefore, other people, 25 that they live differently, live by standards that are inhuman, irrational, unnatural, or wrong.

21. (A) on relative values and understanding (B) in relative values and in understanding  
 (C) about relating values and on understanding (D) by means of relative values and understanding  
 22. (A) Because of (B) Because (C) In the event of (D) In spite of  
 23. (A) it means (B) it is meaning (C) meaning (D) by meaning  
 24. (A) that the fact (B) the fact that (C) the fact (D) the fact that is  
 25. (A) to the extend (B) by and large (C) more or less (D) drawing a line

**III. Reading Comprehension. In this part, you will read several passages. Each one is followed by a number of questions. Question 26 to 40, you should choose the ONE best answer to each question. 2 points each.**

Dariusz Leszczynski, a research professor at Finland's Radiation and Nuclear Safety Authority in Helsinki, has done studies indicating that radio frequency radiation may create a stress reaction in the cells that line blood vessels, leading to a dangerous breach in the blood-brain barrier. "Mobile-phone radiation may be able to indirectly hurt cells, perhaps by interfering with their ability to repair normal DNA damage," he says. "Given the scientific uncertainty, it's premature to say the use of cell phones is safe."

If radio frequency radiation increases the chances of developing brain cancer, it should show up in long-term studies of cell-phone users. But many epidemiological studies have found no clear connection, including a 2007 Danish Cancer Society study of 421,000 cell-phone users, which led many in the media to conclude that mobiles are harmless. To date, "peer-reviewed scientific evidence has overwhelmingly indicated that wireless

devices do not pose a risk," says John Walls, a spokesman for CTIA, a global wireless association.

26. According to Prof. Dariusz Leszczynski,

- (A) whether or not the use of cell phones is safe is still uncertain.
- (B) it is proved that cell phone would impair normal DNA.
- (C) Using cell phones will block blood vessels.
- (D) The research on cell phones is not reliable.

27. The passage following these two passages might be about

- (A) the autobiography of Dariusz Leszczynski.
- (B) problems with many of these studies.
- (C) the development of brain cancer.
- (D) peer review of cell phones.

While fats have lately acquired a bad image, one should not forget how essential they are. Fats provide the body's best means of storing energy, a far more efficient energy sources than either carbohydrates or proteins. They act as insulation against cold, as cushioning for the internal organs, and as lubricants. Without fats, energy would have no way to utilize fat-soluble vitamins. Furthermore, some fats contain fatty acids that contain necessary growth factors and help with the digestion of other food.

An important consideration of fat intake is the ratio of saturated fats to unsaturated fats. Saturated fats, which are derived from dairy products, animal fats, and tropical oils, increase amount of cholesterol in the blood. Cholesterol may lead to coronary heart disease by building up in the arteries of the heart. However, unsaturated fats, derived from vegetable oils, tend to lower serum cholesterol if taken in a proportion twice that of saturated fats.

The consumption of a variety of fats is necessary, but the intake of too much fat may lead to a variety of health problems. Excessive intake of fats, like all nutritional excesses, is to be avoided.

28. Comparing with carbohydrates or proteins, fats

- (A) store food more efficiently.
- (B) deserve their bad image.
- (C) consume more oils.
- (D) provide more fluids.

Which of the followings is the main idea of

29. The main idea of the third paragraph is that

- (A) people are eating less and less fat today.
- (B) fats should be eliminated.
- (C) excessive consumption of fats may be dangerous to one's health.
- (D) fats taken in the proper proportion may reduce serum cholesterol.

30. With which of the following is the whole passage primarily concerned?

- (A) The role of fats in human health
- (B) The dangers of cholesterol
- (C) The benefits of fats in the diet
- (D) The importance of good nutrition

### Gender Equity

(1) In the past decade, increasing attention has been paid to the issue of gender equity in the science, technology, engineering, and mathematics (STEM) fields. Research publications, including the American Association of University Women Educational Foundation's Tech Savvy (2000) and Women at Work (2003), have documented the troubling shortage of girls and women preparing to work in these fields. In response to this "**shrinking pipeline**" of girls and women in STEM, a wide array of programs and strategies has been promoted and funded by governmental and nongovernmental organizations.

(2) The AAUW Educational Foundation and the National Science Foundation are among the top supporters of gender equity projects in the STEM fields. In the last decade alone, these two foundations have

invested nearly \$90 million to fund more than 400 projects specifically aimed at increasing the participation of girls and women in STEM fields. This body of projects presented a unique opportunity to explore the nature of gender equity intervention projects in STEM. Until now, no comparable survey of gender equity intervention projects in STEM has been done.

(3) The research for this report, led by Yasmin Kafai and a team of researchers at the University of California, Los Angeles, was guided by several overarching questions: What types of projects have been funded within and across the various STEM disciplines? Are there areas where we have concentrated our efforts, and areas we have overlooked? What patterns emerge among the project types and disciplines?

(4) The findings document impressive efforts in preparing girls and women for science, technology, engineering, and mathematics studies and careers and demonstrate a rich and diverse body of gender equity intervention projects within all STEM disciplines. About two-thirds of the projects involved extracurricular informal learning activities such as museum visits and field trips. Equally important were mentoring activities in many forms, ranging from traditional one-to-one to large-scale online versions, and professional development activities, such as course taking and network building, that were successfully integrated into projects.

(5) At the same time, the findings reveal some troubling trends. Many projects focused predominantly on career advice without providing access to necessary skill and content development. A majority of projects occurred outside the school curriculum. While such extracurricular projects can be effective and valuable, the overall lack of integration into the school curriculum suggests that gender equity remains on the margins of teaching and learning in the STEM fields. Finally, an absence of data on participant demographics and a lack of project evaluation make it difficult to determine who is being served and if and how project outcomes are being measured.

31. What does the phrase "shrinking pipeline" in paragraph refer to?

- (A) the shortage of oil supply                      (B) the shortage of labor supply  
(C) the shortage of training programs              (D) an issue that is getting smaller

32. Which of the sentences below best express the essential information in the highlighted sentence in the passage 2? (Incorrect choices change the meaning in important ways or leave out essential information.)

- (A) These projects allowed us to study the differences between men and women employed in STEM jobs.  
(B) We were able to intervene when women STEM workers were being treated unfairly.  
(C) Studying these projects helped to create more gender equity intervention projects.  
(D) STEM jobs were able to be studied by exploring nature.

33. In paragraph 3, "Are there areas where we have concentrated our efforts, and areas we have overlooked?"

In this sentence, "we" refers to

- (A) the author and his/her coworkers.              (B) people involved in creating gender equity projects.  
(C) people in the STEM disciplines.              (D) Yasmin Kafai and his team.

34. According to paragraph 4, what is one positive finding of this research?

- (A) the STEM field is rich and diverse              (B) many projects involved mentoring opportunities  
(C) girls and women are being prepared for STEM jobs      (D) the quality of the questions asked

35. According to paragraph 5, what is one negative trend discovered through this research?

- (A) access to unnecessary content              (B) extracurricular projects were common  
(C) evaluation of the projects was too specific      (D) focus on career advice

Chili peppers are decidedly an international phenomenon, spicing up regional dishes from Thailand to North Africa. In Thailand Confidential, this week's Globalist Bookshelf selection, Jerry Hopkins gives insight

to the culture and history surrounding this fiery fruit (yes, technically a fruit) and highlights how it may be one of the world's best medical miracles.

In Thailand — where restaurants rate their dishes by placing one, two, three, and sometimes four little red chilis on the menu next to the dishes' names to alert diners — I am tolerated. Barely.

A longtime friend, who is a Thai chef, used to bring home food purchased at street stalls and as she placed this on the table, she would point to one container and say, "Mine," then to another, saying, "Yours." As if to say, "Poor dear."

Thailand is not the birthplace of the Capsicum, or chili pepper; it only acts as if it is. In fact, the chili was imported, along with much else in the national diet. However, in Thailand the **per capital consumption** of the small, fiery fruit is surely as high if not higher than it is anywhere else. And it is in the use of unprocessed, fresh, ripe chilis where Thailand rings all the loudest bells.

The truth is that chili is an international phenomenon. There is a bimonthly magazine published in the United States, Chili Pepper (there is no agreement on the spelling), and a wide variety of products is available, including pepper-shaped wind chimes, bells, and strings of Christmas tree lights. There is even a Hot Sauce Club of America; members receive two new hot sauces and a newsletter every month. There is even a popular American rock and roll band that calls itself the Red Hot Chili Peppers. Yes, the band is hot.

36. From these passages, we learn that the author

- (A) enjoys chili peppers everywhere.
- (B) does not really like chili peppers.
- (C) likes to have chili peppers to go with some certain kind of food.
- (D) like to go to restaurant famous for chili peppers.

37. The best title for these passages is

- (A) Thailand and Chili peppers.                      (B) Chili Peppers and Spicy Dishes.
- (C) Different Tastes all over the World.      (D) Chili Peppers and Globalization.

38. Based on the passages, which of the following is NOT TRUE?

- (A) That Thailand uses unprocessed, fresh, ripe chili peppers has started the popularity of chili peppers.
- (B) Thailand exports a lot of chili peppers.
- (C) Chili peppers are a kind of fruit.
- (D) Thai food is normally quite spicy.

39. What does **per capital consumption** mean?

- (A) amount consumed per person within a specific population.
- (B) capital population and its consumption.
- (C) capital with that the government provides each person for food consumption.
- (D) capital that each person can get for their daily food consumption.

40. What is the main idea of the last paragraph?

- (A) Chili peppers are very popular in the United States.
- (B) The use of chili peppers in the United States is being influenced by Thailand.
- (C) Chili peppers are made into different toys.
- (D) Chilli peppers have made a rock band very hot.

#### IV. Essay. 20 points.

Please write a **well-structured** essay on **how you can prepare yourself for living in a diverse and more global society** in 150 to 200 words discussing your opinions.

高雄醫學大學 99 學年度 研究所 招生考試  
香粧品學系碩士班 香粧品科學考題 (共 3 頁)

一、選擇題 (單選，每題 3%，共 60%)

- ( ) 1. 一般防曬用品所標示之 PA ++(Protection Factor)是針對哪一區段之紫外光做防護？  
(A)UVA 320 nm- 400 nm (B)UVB 280- 320 nm (C) UVC 200- 280 nm  
(D)UVA 280- 320 nm
- ( ) 2. 皮脂之最主要組成成分為何？  
(A)Squalene (B) Wax esters (C) Triglycerides (D) Free fatty acids
- ( ) 3. 對於化粧品中鉛、砷等重金屬之微量定量分析，下列何種分析儀器最適合使用？  
(A)High Performance Liquid Chromatography (HPLC) (B) Atomic Emission Spectrophotometry (AES) (C) Gas Chromatography (GC) (D) Thin Layer Chromatography (TLC)
- ( ) 4. 天然萃取成分添加至化粧品已蔚為潮流，以下的萃取方法中何種最為環保？  
(A) Liquid liquid extraction (B) Solid phase extraction (C) Supercritical fluid extraction (D) Soxhlet extraction
- ( ) 5. 下列何者為抗氧化劑且參與氧化磷酸化電子轉移系統合成 ATP？  
(A) Idebenone (B) Ubiquinol (C) Vitamin E (D) Vitamin C
- ( ) 6. 下列何者不可用來治療白斑及牛皮癬？ (A) 5-Methoxypsoralen (B) Methoxsalen (C) Dihydroxyacetone (D) Dihydroxycalcone
- ( ) 7. 下列何者非三合一去斑膏之組成？(A) Hydroquinone (B) Azelaic acid (C) Retinoic acid (D) Steroids
- ( ) 8. 一化合物為  $\text{CH}_3\text{CH}_2\text{OCH}_3$ ，請問在  $^1\text{H-NMR}$  光譜中  $\text{CH}_3$  的訊號會出現在  
(A) 1.11 ppm (B) 2.24 ppm (C) 3.41 ppm (D) 7.28 ppm
- ( ) 9. 承上題， $\text{CH}_3$  受到鄰近質子的影響會分裂多重峰，請問其峰線及曲線下面積比為何？ (A) Quartet, 1:2:2:1 (B) Quartet, 1:3:3:1 (C) triplet, 1:2:1 (D) doublet, 1:1
- ( ) 10. 由 Myrcene 與 acrolein 或 3-methylpent-3-en-2-one 反應，將會生成產物 (A)

或 (B)，請問這樣的反應式係指下列何種反應？ (A) Aldol condensation  
(B) Carroll reaction (C) Claisen rearrangement (D) Diels-Alder reaction

- ( ) 11.燙髮形成波浪是利用還原劑打斷毛髮角質中的何種鍵結？  
(A) Covalent bond (B) Peptide bond (C) Disulfide bond (D) Ionic bond
- ( ) 12.「由油、水兩親媒介物質所形成的一個透明或半透明液相，熱力學性質安定，屬膨大微膠粒之分散系統」此定義是指：  
(A) Solubilization (B) Microemulsion (C) Emulsion (D) Colloid solution
- ( ) 13.目前最常用的精油萃取方法是下列那一種？(A)萃取法，(B)水蒸氣蒸餾法，(C)壓榨法，(D)浸漬法。
- ( ) 14.下列何者不是抗老化生技化粧品主要作用機轉？(A)抗氧化，(B)抗發炎，(C) 刺激纖維母細胞增生，(D)抑制脂肪酸形成。
- ( ) 15.下列那一種不屬於中草藥化粧品的特性？(A)成分天然，(B)細胞相容性佳，(C)安全性高，(D)具有累積性。
- ( ) 16.下列何者不是美白保養品的活性分析方法？(A)紫外線照光試驗，(B)抑制酪胺酸酶試驗，(C)黑色素含量試驗，(D)一氧化氮含量試驗。
- ( ) 17.有關多功能膚質檢測儀之敘述何者錯誤？ (A) Corneometer，表皮水分測儀：乃是利用電場迴路測得不同的電容量，來定義皮膚表皮層的含量 (B) Tewameter, TEWL，表皮水分散失，乃是利用電場迴路測得不同的電容量，來定義皮膚表皮層的水分散失量 (C) Reviscometer，皮膚深層彈性及纖維方向性量測儀：乃是藉由聲波傳遞來測量纖維的方向性 (D) 以上皆是
- ( ) 18. 下列何種二次代謝產物不是由 Acetyl Co A 代謝而得？  
(A) Steroids (B) Terpenoids (C) Fats and waxes (D) Peptides

- ( ) 19.下列何者不是眼睛刺激性試驗評估部位?(A)角膜，(B)虹膜，(C)結膜，(D)瞳孔。
- ( ) 20.下列那一種不是精油的成分分析方法。(A)氣相層析法，(B)紅外線吸收光譜法，(C)高壓液相層析法，(D)低壓液相層析法。

## 二、簡答題(40%)

1. 皮脂腺位於皮膚之哪一層構造? (5%)
2. 何種酵素是黑色素形成之過程的最關鍵參與者? (6%)
3. 在芳香化粧品中的古龍水，其所含香料的濃度為多少?(5%)
4. 何謂 Cloudy Point?(12%)
5. 請簡述 Tranexamic Acid 之功用?(12%)
